

3 Simple Ways to Save Water When it Comes to Recreation

1. Avoid recreational toys that require a constant stream of water.
2. If you have a pool, remember to purchase a water-saving filter.
3. Cover your pool to reduce evaporation when not in use.

More outdoor water saving tips

- You are over watering when puddles are forming on the landscape or in the street.
- Water during early morning hours to reduce evaporation.
- Save water and reduce diseases by watering the root zone instead of the foliage.
- Water deeply for a deeper more health root system.
- Add organic matter to the soil to improve water and nutrient-holding capacity for healthier plants.
- Use dehumidifier and air-conditioner condensation to water your plants.
